November 2019

Dear Customer,

Re: Possible disruptions to service.

Sigma endeavours to conform to strict GDP guidelines when transporting medical products to your business. This is with every intention to comply with manufacturer's storage guidelines as well as maintaining patient safety.

In anticipation of the extreme weather conditions expected in coming weeks, please be aware that we may be compelled to reduce or suspend delivery of some temperature controlled products to you. We understand that this would cause inconvenience, and sincerely apologise for this, but want to support and advise you as much as possible to plan and place your orders in advance, should this action be necessary.

We will advise on our website www.sigmaplc.com and on SigConnect 2 to 3 days before possible action to assist you further, but in the meantime, if you wish to discuss any matter relating to the above, please do not hesitate to contact your Sales Executive or our Customer Services Team on 0800 358 4427 or cs@sigmaplc.com.

Yours Sincerely

Hatul Shah
Executive Director & Responsible Person
